MCH Packs & ACE Caps

Order NOW through March 31, 2026!

PRODUCT INFO & PRICING

Arrowhead is continuing to show progress combating the Douglas-fir bark beetle. Our main defense is MCH packs, and they do a great job at countering this insectile disease. We need to continue putting up MCH packs to maintain success. As with everything the prices have gone up a bit, but the overall price point is still low. Two different packs are offered:

MCH Pack Pricing:

RECOMMENDED

Single Bubble: \$2.27 per packet **Double Bubble: \$3.32 per packet**

Based on our area and recent advancements in how well the Double Bubble design works, **we recommend many owners switch from the Single to the Double Bubble**. The Double Bubble is more cost-effective because fewer are needed for the same coverage area. Per acre, only 20-30 Double Bubble packets are needed as compared to the Single Bubble requiring 40-50 depending on the beetle pressure or area tree density. The Double Bubble packets can be placed 40-50 feet between each packet. The Single Bubble packets should be placed 30 feet between each packet.

ACE Cap Pricing:

50 1/2" ACE Caps: \$45.00 per bag **75 3/8" ACE Caps:** \$56.25 per bag

Many owners have had great success combating the Western spruce budworm by using ACE caps to protect their Douglas-firs, true firs (e.g., subalpine fir and white fir), and spruce trees. If you've had any past issues with the budworm, we highly recommend installing ACE caps in your trees to protect them.

Please contact Arrowhead Forest Manager, **Jim Gelsomini**, at **970-209-7755** or arrowheadforestmanager@gmail.com if you have questions or need more information **about the products or quantities needed**.

ORDERING INSTRUCTIONS

Choose 1 of the 2 Options:
