

KEN HARBERT

My name is Ken Harbert. I was born and raised on the Front Range of Colorado. After I graduated high school, I went to work at my father's machine and welding business that he established in 1955. After my father's passing in 1990, I continued to run the business, and after 45 years, I retired leaving my son to manage the three-generation business.

My wife Anita and I bought our first lot at Arrowhead in 2001, and then built our house in 2010. We would come to Arrowhead often to get out of the big city to ride dirt bikes, snowmobiles, hike, and to just relax. After retiring in 2022, we made Arrowhead our primary residence and enjoy living here full-time.

I served on the Arrowhead Fire Protection District board for 6 years and have been a big supporter for the AVFD auxiliary helping with fundraising events. As our diverse community continues to grow, I see its needs change constantly and would like to help guide the Arrowhead community in the coming years.
