

IN THIS ISSUE...

...you'll find important information about Arrowhead, valuable information about the many fine folks who advertise the goods and services that our community needs, meet a couple more of the great Arrowhead community members and view lots of photos that the Arrowhead Photo Club shared of their recent "field trip" to ride the Galloping Goose!

I want to thank everyone for making the Arrowhead in Colorado (AIA) Facebook page a rousing success! With over 1,500 folks viewing it each week and a whopping 43,000 "friends of friends", this page has exceeded anything I ever dreamed of! If you just love seeing photos of Arrowhead in all its glorious color, neat shots of from around Colorado, like to be instantly informed about our community... or just find you miss Mountain Living, our Facebook page is where to head! It's easy and you don't need a Facebook account, just go to the AIA Website and find the little Facebook icon in the list on the left. Click on that and you'll be whisked to the FB site! It has already become a daily must for many folks at Arrowhead!

Have a happy Halloween
and a blessed Thanksgiving!

Melissa Hernandez

Communications Manager
missyanne@mac.com

People of Arrowhead

On page 11 meet the Crews-Whitby crew! Every summer sees the arrival of Karen & Carolyn! They are two that know how to enjoy all that living in our area brings. Hope you will take the time to get to know them!

Want to be featured in People of Arrowhead? Send me a picture and a write-up and I'll add you to my file!

Arrowhead Photo Club

On pages 13-17, you'll find outstanding photos from our own club as they galloped along on the Galloping Goose!

PRESIDENT'S MESSAGE

Bob Hernandez

bobhernandez@mac.com

Since this is the October/November issue of the Smoke Signals, I thought I'd use this space to mention all the things about Arrowhead that I'm thankful for.

I'm thankful for the lakes, the fish, the Inn, owner's dinners, the fire department, the livery, visiting friends, the "purple mountains' majesty" of the San Juans and the West Elks, incredible vistas, wide open skies, stargazing, ATVing, mountain biking, fishing, hiking, horseback riding, walking, cross-country skiing, snowshoeing, snowmobiling, elk, bears, deer, squirrels, pine martins (though not pack rats!), hawks, ravens eagles, columbines, Shasta (the good kind) daisies, showy purple daisies, salsify, mountain iris, quaking golden aspens, majestic Douglas firs, camp fires (after the fire ban was lifted),roasting hotdogs and brats, camping, RVs, an excellent road crew, the fire department, 17 first responders, team players on the Board, pure mountain spring water, the visiting friends of friends, the 4th of July Picnic, incredible volunteers, clean up Saturdays, the John Krall Award, the fire protection district, our foresighted founding developer, our fantastic fire chief - Brent, our foresters - Bob and Bill, the whole design review committee and security team, our webmaster, our office manager, temporary office help, our groomers, our communications manager, the water company, days of brilliant sunshine, dazzling snow, and torrential, life-giving rains, the roaring Black Canyon and expansive Blue Mesa Reservoir, strong winds (but not too strong),trout, salmon, an incredible sense of community, helpful neighbors, pot luck suppers, pancake breakfast, book club, snowmobile club, Bible club, photo club and the Arrowhead Riders.

There are so many things that all of us are thankful for at Arrowhead, we are truly blessed to live in God's country.

I want to also thank and acknowledge the fine work and dedication of Don Koeltzow and Rich Ostrom who have recently left the Board. Their participation, smarts, and humor are already missed.

Enjoy your fall!

Bob Hernandez

FIRE CHIEF'S MESSAGE

Brent Mims

avfdchief@gmail.com

The Arrowhead Fire Protection District has purchased a 2011 Prinoth Trooper snowcat. We also took delivery of our slip-on pump unit that is used for both the snowcat and to supply a second fire engine for Arrowhead during the summer months. We are, as always, training and are ready for the Arrowhead winter!

IMPORTANT NEWS FROM THE A.I.A. FOREST MANAGER

**Anti-Beetle
MCH
PACKS**

As we did last year, property owners can piggyback on the AIA's order for MCH packs. The price is \$1.67 per pack and the rule of thumb amount is 40/acre. Please make checks payable to the AIA but send them to: Bob Rosenbaum

636 Columbine Dr
Cimarron, CO 81220

He will log in each order and distribute them in early May. If the order is large enough -- more than 5000 -- the price per pack will drop. The difference will be made up in extra packs. Checks need to be received by Friday, Nov. 16th. bobrose@fone.net

SECURITY'S MESSAGE

Reinie Masanetz

reinie@fone.net

The Security team has installed new traffic signs, a STOP sign on UTE when entering onto RIM Rd and a warning sign to slow down when making a left turn from RIM Rd onto UTE. This intersection is prone to accidents because of excessive speed, so please adhere to these traffic signs for yours and other's safety. We appreciate the public's help and observations and please do call directly to Security's cell phone, **970-209-6335** and speak with the Security Officer on duty or leave a message reference any issues that concern you.

Fall is here and so are some important dates to mark on your calendar!

1. The winter parking lot will open **October 15** according to our "County Land Use Permit" and you may preposition your vehicles, snowmobiles and trailers.
2. All camping equipment, tents, motor homes, camp trailers, truck campers, self contained RV's, must be removed from the site and boundaries of Arrowhead, prior to **November 18th**. The AIA Board is required to set a date per our AIA Covenants, but please use common sense if heavy snow arrives early this year, please remove your RVs as soon as possible from your property.
3. Assigned diesel parking spaces are available for \$200 for the entire winter season. Short term diesel parking spaces are also available for the cost of \$50 for a full week and \$10 per weekend (Fri-Sun). Trailer spaces (for the entire winter) cost \$50. Short term trailer spaces with trucks are available in a designated marked row of the parking lot, with no charge. We encourage you to make your reservation as early as possible, to ensure your space.

At the October 20th AIA Board meeting and Winter Resident's meeting I will discuss the Winter Parking lot rules in more detail.

Reinie Masanetz
Security Manager

AIA Security is seeking new team members! For info see next page.

Interested in having a job right
here on the Mountain that *pays*?
Our Security team is looking for
a few good members!

Job requires an individual who enjoys
working with people and one who is familiar
with the Arrowhead Covenants and
Regulations

DESIGN REVIEW'S MESSAGE

Joyce Boulter

joyce.boulter@gmail.com

It is starting to cool off, from the 60's and 70's to the 50's. That is for all the owners that spent the summer in the hot climates. There have been numerous driveway locations, R/V pads, sheds and a garage. Please try to have your center pin flagged on your property. Mark it with colored tape and put some markers in the trees around it also. I have tried to initiate using red or pink tape for center pins and green tape for property edges. I will give some to owners if you need it. It took three tries and two days to find one center pin. We are going to try out GPS locations from the county, but they are not always accurate in the trees. We find walking over the lot is usually the best way and have often stumbled over a pin. Between now and snowfall the committee will be checking on the numerous mitigation and defensible space projects. Owners with projects due this fall will be given another year for completion. Before you begin a mitigation or defensible space project you must have a plan written by a certified representative of the AIA board. Please call Bob Rosenbaum at 970 862-8421 or Joyce Boulter at 970 862-8449 for more information.

MOUNTAIN HEALTH

Joyce Boulter

This will be my tenth winter on the mountain. I have been retired from school nursing for 10 years and when I hear people talking about immunizations I still perk up my ears. Last week, while at the doctors office, I got my flu shot. I thought I would look into adult immunizations. Here is the list that adults over 60 need. This information can be viewed at www.cdc.gov.

Influenza Td booster

One dose annually, usually in September or October
Booster every ten years. With a cut or incident your physician may give a booster at that time.

Zoster

One dose after 60. This is the immunization to reduce the occurrence of shingles and reduce the pain or neuralgia. Shingles is the adult reaction to virus in the body from childhood chickenpox. You should have the vaccine even if you don't remember having chickenpox. You may have been exposed or have a mild reaction as a child and still have the remaining virus. The vaccine is also recommended for adults that have had one episode of shingles, to reduce the chances of another episode.

Pneumococcal

May have one or two doses before 65, but need one dose after 65. This is effective for pneumococcus pneumonia. There are other types of pneumonia that are not covered by this vaccine. The vaccine is good at reducing the severe life threatening disease, but may not prevent infection in everyone.

Flu, Td, Zoster, and Pneumococcal may be given at the local health department and at some pharmacies, like Walgreens and City Markets as well as your private physician's office. You should call ahead to make sure it is available and see if you need an appointment. joyce.boulter@gmail.com

ARROWHEAD COOKS! The Best of the Mountain!

Arrowhead Cooks brings you the season's very best! This issue we start with our reigning kitchen queen, Billie

Cranberry Streusel Pie

1/2 (15 oz) package refrigerated piecrusts

1/2 c. fresh or frozen cranberries

1/4 c. sugar

1/4 c. firmly packed light brown sugar

1/2 c. chopped walnuts

1/2 tsp. ground cinnamon

1 large egg

1/4 c. butter or marg. melted

1/2 c. sugar

3 tbs. all purpose flour

Fit piecrust into a 9in. pie plate according to package directions; Fold edges under and crimp. Stir together cranberries and next 4 ingredients and spoon into piecrust.

Whisk together egg and next three ingredients; pour over cranberry mixture.

Bake at 400° for 20 min. Reduce temperature to 350° and bake for 30 more minutes.

Yield: 1 (9 inch) pie

MEET THE CREWS-WHITBYS

“Two thousand miles is a long way to drive,” admits summer residents, Karen Crews and her twin sister Carolyn Crews-Whitby, “but escaping the heat and humidity of Florida for the balmy weather of Colorado makes it all worthwhile.

We both feel a sense of joy when we turn on Alpine Plateau Road and know that 76 Balsam is just a few minutes away. And once we start the drive up, the “critter count” competition begins.”

Karen and Carolyn, a retired world history teacher and school administrator respectively, have been coming to the western slope since the early 70s. Their parents had been friends with a Montrose family since World War II. A love of the West and numerous camping trips frequently brought them to the local sheep ranch, where fun was always the assignment of the day. After two summers in Montrose in 2006-07, the “girls” decided they liked the area enough to look for a summer residence to own.

After driving around Grand Mesa and not liking the cabins, a friend suggested they check out Arrowhead. “It was love at first sight for us,” states Carolyn, “and the buck with a large rack that came out of the woods to check us out helped clinch the deal.” They looked at a number of cabins and lots, but the “little crooked house” with the hot tub in the familyroom was their favorite.

All four summers of residence since 2008 have been a challenge. “We didn’t know how to make a fire in the fireplace, and some inside/outside animals—weasels, a bat, a bear on the deck, several mice—taxed our sense of humor, but we managed to conquer them all. On top of that, our friends have loved coming to visit and experiencing the mountain life. We have had over 50 houseguests and several repeats so far.”

When asked what she likes about Arrowhead, Carolyn tells friends, “I’m 12 years old everyday. I walk; read; play cards, dominoes, and golf; attend weekly potluck and Bible study; fish; learn about wildlife and flowers; and take ATV rides.” Both sisters agree that they are more active at Arrowhead than they are in Florida. “We almost need to return home in October just to rest,” jokes Karen.

“Arrowhead is a unique community of interesting, active people. We enjoy the differences of opinions, the diversity of backgrounds, the local artists (Earl Alford is our favorite); the range of residences, and the nonstop conversations,” the twins agree. “We’re not tough enough for the winter, but every spring we eagerly anticipate the departure date for the Crews Nest. There’s no other place like it for us!”

Carolyn Crew-Whitby on the left
(Carolyn's wonderful husband Phil had to
head back to Florida) and
Karen Crews on the right holding her
terrier, MacIntosh!

ARROWHEAD PHOTO CLUB

Photo Club Rides the Galloping Goose

The photo club was formed by a group of folks at Arrowhead who enjoy the hobby. The club meets generally twice monthly to enjoy technical and critique sessions to help hone camera skills. Once or twice monthly we take active field trips to all the wonderful Colorado sights, especially during Summer and Fall. Everyone is welcome to join us, from beginner to advanced. The atmosphere is casual, with a slant toward learning photo skills in printing, composition, technique, and eventually competition.

The Galloping Goose

The RGS built its first motor in 1913, as a track maintenance crew vehicle. This was wrecked in 1925, but inspired the idea of using motors for scheduled service.

All of the "geese" were built in the railroad's shops at [Ridgway, Colorado](#). The first was built in 1931 from the body of a [Buick](#) "Master Six" four-door sedan. It was more conventional in its construction than the later geese, though it had a two-axle [truck](#) in place of the front axle.

Part of the rear of the car was replaced by a truck stake-bed for carrying freight and mail; this was later enclosed and partially fitted with seating. It was used for two years to carry passengers, US Mail, and light freight before being scrapped.

Goose #5 was bought by the city of [Dolores, Colorado](#). After restoration in 1998 it is now operated from time to time on the [Cumbres and Toltec](#) and [Durango and Silverton](#) tourist railroads, as well as at the [Colorado Railroad Museum](#).
